PROJECT

As we step into a new month, we are excited to look back at the impact we created together in August. Each effort brought us closer to building healthier, greener, and more sustainable communities.

From community-driven initiatives to fresh solutions for health and environmental challenges, August was a month of action, growth, and real change. Together, we continue shaping a brighter tomorrow.

With love,

Global Foundation of Good Neighbors

MISSION

GFGN respects the human rights of those suffering from poverty, disasters, and oppression, helping them achieve self-reliance and rebuild hope.

Empowering People; Transforming Communities

The Foundation Day of GFGN was joyfully celebrated at our Community Corner with the active participation of children. The highlight of the day was a cake-cutting ceremony, where children joined hands in spreading smiles and sharing happiness. The event created a sense of togetherness and reminded us of our commitment to nurture and empower young minds in the communities we serve.

“ Honoring Our Journey, Renewing Our Commitment

the GFGN office, Foundation Day was observed with warmth and reflection. Team members gathered to mark the occasion, share experiences, and reaffirm their dedication to building brighter futures through collective efforts. The celebration served as a moment of gratitude for the journey so far and a renewed commitment to continue working towards positive change.

Swachh aadat - Spreading Healthy Habits in Jahangirpuri

Good Neighbors introduced children in Jahangirpuri to the importance of clean habits through a fun and interactive handwashing session. The children enthusiastically learned the six steps of proper handwashing and enjoyed practicing them together. By encouraging these simple daily habits, Good Neighbors is helping build a healthier community and moving closer to a future where every child grows up safe, healthy, and strong.

What's New?

Six Steps to Stronger Health

After the handwashing session, the children's excitement didn't stop there! We organized small quizzes where they eagerly demonstrated the six steps they had just learned. Watching them confidently teach us back was not only heartwarming but also a powerful reminder that true learning happens when children become the teachers.

FIRST AID KIT SUPPORT AND BASIC ORIENTATION

Good Neighbors, in partnership with our implementing organization EFICOR, successfully conducted a First Aid Kit orientation program for teachers and Child Parliament members at Dharama Sagar High School Dommasandra, Government Higher Primary Girls School Dommasandra (Sarjapur), and Government High School Sodenahalli (Tumkur).

foster a culture of health awareness and preparedness in schools

safer, healthier, and better-prepared school communities

Child Parliament were also provided with a fully equipped First Aid Kit box

The program witnessed the enthusiastic participation of 178 children and 20 teachers, making it a truly impactful and interactive session. The orientation was designed to strengthen the knowledge and practical skills of both educators and students by focusing on:

"Knowledge, Cared & Preparedness"

To ensure long-term benefit, each participating school and its Child Parliament were also provided with a fully equipped First Aid Kit box, enabling them to respond more effectively in case of minor health emergencies.

HEALTH CAMP

FIRST HEALTH CAMP LAUNCHED IN KOTHAPALLI”

A Free Health Camp was recently organized in Kothapalli, Seethampet, Rayachoty with the primary objective of increasing community awareness about the common illnesses that typically spread during the rainy season, such as viral fevers, skin infections, respiratory ailments, and waterborne diseases.

This initiative was made possible with the generous support of the District Health Committee, who not only provided technical guidance but also ensured that free medicines and essential health supplies were made available to the participants. The camp created an opportunity for community members—many of whom have limited access to healthcare facilities—to consult with medical professionals, receive preventive health advice, and obtain necessary treatments without financial burden.

53 BENEFITTED

The impact was visible right from the very first camp, individuals directly benefitted through consultations, medication, and awareness sessions. Beyond just treatment, the camp emphasized preventive care, helping people understand the importance of hygiene, safe drinking water, and early medical consultation to avoid complications.

Tree Plantation & Climate Awareness

On July 29–30, 2025, Global Foundation of Good Neighbors (GFGN), in coordination with the District Forest Office, Annamayya, successfully planted 450 saplings across three schools in Rayachoti, Andhra Pradesh — ZPH School Matli, MPP School Matli and ZPH School UR Palli. For this program, the District Forest Office generously supported us by providing the required saplings from their nursery. This initiative wasn't just about planting trees — it was about planting hope, awareness, and responsibility in the hearts of young learners.

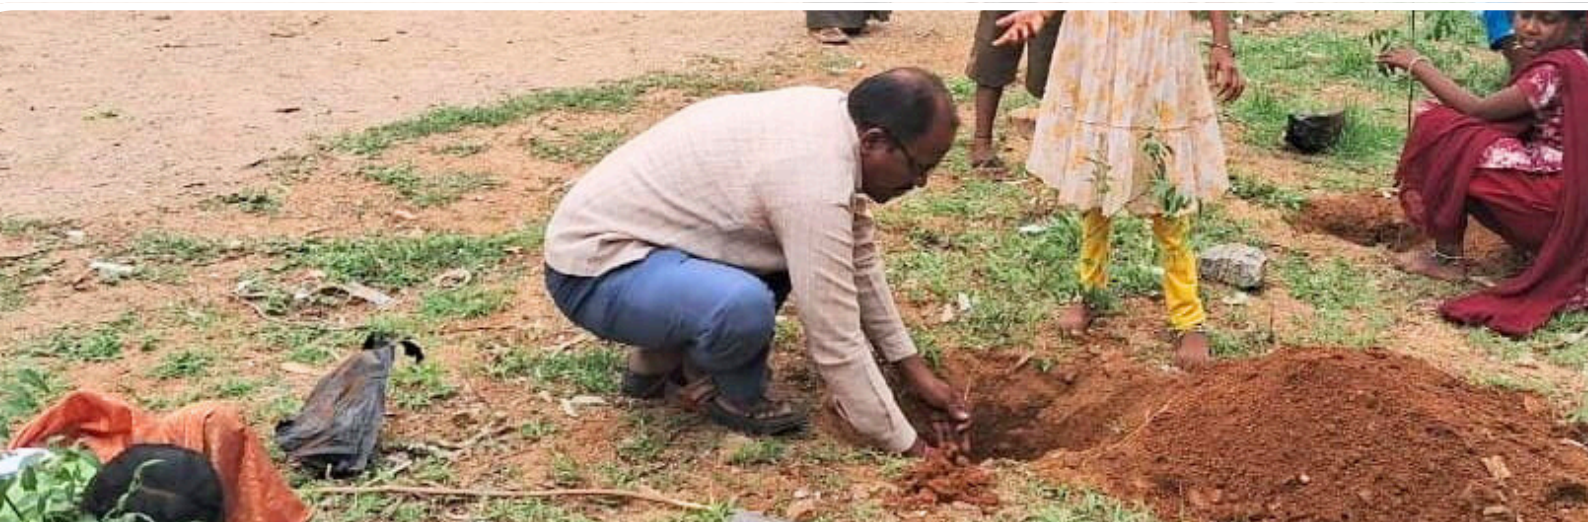

As part of the program, we also conducted an engaging Climate Change Awareness Session in each school, helping students understand:

- The importance of protecting our environment
- How small actions can make a big difference
- The role of trees in fighting climate change

We believe that every tree planted today is a promise for a better tomorrow. With the energy of our youth and the support of the community, we can make our environment greener, healthier, and more resilient.

EMPOWERING YOUNG VOICES: CHILD PARLIAMENT FORMATION & STRENGTHENING

- BACHALLY HAIGH SCHOOL, BANDIPUR**
- ANAJANDRI HIGH SCHOOL, SARJAPUR**
- DHARMASAGAR HIGH SCHOOL, SARJAPUR**

Good Neighbors, in collaboration with our partner organization EFICOR, successfully organized a series of Child Parliament Formation and Strengthening programs across 5 schools in Bandipur, Chickjala, and Sarjapur, reaching a total of 638 participants. These sessions focused on nurturing new child leaders, building teamwork, and promoting collaborative decision-making among students.

At a time when India is placing greater emphasis on inclusive governance, civic responsibility, and youth engagement, empowering children to lead and work together is more crucial than ever. Child Parliaments are powerful platforms that help children develop leadership skills, raise their voices for their rights, and become active contributors in their schools and communities.

This initiative is not just about forming groups – it's about planting the seeds of democracy, responsibility, and unity in the hearts of our future changemakers.

- A.GOV. HIGH SCHOOL, SODENAHALLI, TUMKUR**

INDEPENDENCE DAY CELEBRATION WITH CHILDREN'S TALENT & LEADERSHIP

This Independence Day, Good Neighbors, together with implementing partner EFICOR, celebrated with Drawing Competitions at Vidyanagar Primary School, Chickjala and Government Higher Primary Girls School Dommasandra Anekal Taluk, Sarjapur, filled with colors, creativity, and the spirit of freedom.

The program was led by the Child Parliament, with our support and coordination alongside schools. Every participant expressed their imaginations on paper, showcasing their wonderful talents and love for the nation.

Our main objective was to empower children to become future leaders by encouraging them to lead, work as a team, and coordinate meaningful programs. Through such initiatives, we aim to nurture confidence, creativity, and leadership among children.

As a result, the event became more than just a competition, it was a platform for children to dream, express, and take ownership of their journey as responsible young citizens.

Together, we believe that today's children are tomorrow's leaders, and by supporting their voices, we are building a brighter future for all.
